

Burton Car Company newsletter July 2011**Open door day on 4th of September 2011**

Our annual Open Door-day will be held on Sunday the 4th of September, between 11:00 and 16:00 o'clock. We will present our new 'Burton 2CV-'parts, have some special offers, a fair with secondhand- and prototype-parts, test-drives, a workshop polyester, and the election of the prettiest Burton of 2011!

**World Meeting of 2CV Friends**

This event is held every two years, and this summer the meeting is held in Salbris, France. With already 5350 cars preregistered, this is going to be big! This meeting can't be missed by any Citroën-enthusiast. We will be present with a 2CV-parts-stand, and we would like to meet you there! More information [here](#).

It is possible for us to bring a (large) order to the meeting. If you want to order parts that are impossible or costly to ship, please contact Loek at

loek@burtoncar.com.

Burton 2CV parts catalogue

Our range of specific 2CV parts consists of more than 700 parts. For your convenience we bundled these parts with colourful pictures in a catalogue. On more than 60 pages every part is explained with a colourful picture, so now it's real easy to compose an order. So get your English catalogue at the World Meeting in Salbris!

**Passionate Rally for Electric Vehicles**

On Sunday the 5th of July, more than 100 electrical-powered vehicles participated in the Passionates Rally for EV's, driving over 100 kilometres. The largest rally ever held for EV's only. Iwan had a go with our Burton Electric.

For many this drive would cause headaches about range, but not for Iwan. De Burton proved that it can compete with cars like the Nissan Leaf and Opel Ampera, which were developed by large multinationals.

Burton movie

For the AutoRai and our VIP-day, a new film was shot about our company. This film can now be seen on [YouTube](#) and the Media-page of our website.

Facebook & Twitter

The easiest way to stay updated about Burton Car Company is to follow us on Facebook and Twitter.

Burton Car Company on [Facebook](#) and Iwan Göbel on [Twitter](#).

Car clubs visit Burton Car Company

The past months we have had several car clubs visit our company, including the Fiat 500-club, the Fiat 124 Spider-club, and a club of female, roadster driving entrepreneurs. They enjoyed a tour around our company, a speech of Iwan Göbel and a complete lunch. Would you also like a day on our premises with you (car)club, contact Loek at loek@burtoncar.com

New Parts

Tie Rod Wrench: ([A1.2790](#)): Setting up the correct ride height is essential for a good handling. Wrench for adjusting the ride height: € 29,75.
