

Newsletter December 2011

24H of Spa Francorchamps

On October the 15th and 16th all you could see on the circuit of Spa Francorchamps were 2CV's. This year's Burton race car almost had twice as much horse power. Sadly this caused problems with the oil system so the Burton could finish the race. Next year we will be back to finish it.

Electric 2CV in a TV program

The Burton Car Company is currently working together with a Dutch college on electrifying an AK400. This process is filmed for a Dutch TV show.

Update Turbo-project

On our last Open house day we presented our 2CV turbo charged engine for the first time. We currently experimenting with the ignition timing and carburettor settings to optimize the engine. We also doing test on durability, engine temperatures and wear. In 2012 we want to give a special selection of 2CV freaks the opportunity to buy a turbo kit for a special and help us develop it.

So if you are interested please send an email to turbo@burtoncar.com

BCC is cleaning up!

A shortage of space is always a good thing for the customer because this results in super discounts! This edition of newsletter we have a nice selection of Burton body kits with a large discounts for sale:

Please contact Loek by loek@burtoncar.com or 0575-546055 for more details.

Christmas holidays from 25th of December until the 6th of January

We are closed during this period because of the Christmas holidays and because of inventory count. From Saturday the 7th of January we will be open. Our improved web shop is open 365 days a year. Nowadays you can even see what's on stock and what's not.

New Years Reception and Burton Owners Club members meeting.

We would like to celebrate the beginning of 2012 together with you. So you are all invited to join us and look back on 2011 and off course look forward to the future. The Burton Owners Club members meeting starts at 1 PM and from 2.30 PM the New Years reception will begin. The shop will be opened all day. Hope to see you then!

The Hague Beijing Challenge

On Liberation day on the 5th of May 2012 the Hague Beijing Challenge will start. This is a long distance rally for classic cars through Germany, Poland, Lithuania, Latvia, Estonia, Russia and Mongolia to the finish line in Beijing, China. The total distance of the rally is around 11.000 kilometres. Two Dutch gentleman's will enter in this rally with a Burton. The idea of this rally is to collect as much money as possible for the Foundation Terre des Hommes. For more information go to www.hbc2012.com

New or improved parts in the Burton 2CV Parts collection

Rubber for the seat or bench in a 2CV, Burton, Dyane or AK were not available in good quality and often snapped. So from now on we have an improved seat rubber which nice and flexible. Price: € 0,50 per piece.

Order immediately? Press [here](#).

The starter engine was all ready a bargain at Burton Car Company. But now in even better quality and also lowered in price. Just only € 65,45! Order immediately?

Press [here](#).

This mud flap for the 2CV is evolved to a model that can be used on both sides by just turning it. This evolution made the production process a lot cheaper so we can now offer it you for only just 7 Euro. Order immediately? Press [here](#).

With a 2CV rim you sometimes have the problem of a flat tyre because the inside of the rims starts to rust and is not air tight anymore. An inner tube can be your solution in this matter. For only 12 Euro you'll save a lot of trouble. Order immediately? Press [here](#).

The engine panelling is fitted with a series of bolts, screws, nuts and clips. We combined these things in a set with almost everything made from stainless steel. And this for just 10 Euro! Order immediately? Press [here](#).

The Power Tube is available again! With 0,6 Bar of pressure this cheap and smart innovation gives your 2CV an extra boost of 4-5 horse power. Please take not that a correct setting of the jets in the carburettor is required. Now even down in price from 90 to 75 Euro! Order immediately? Press [here](#).

We have lowered the price of the stainless steel hose clamps and improved the quality. The worm wheel is now made from steel and this prevents it from wear. Have look at our range of hose clamps [here](#).

The 2CV roof is secured with two clamps which often start to rust and don't look very nice in the interior. We made them from stainless steel and polished them for a nice finish. The price is 25 Euro for a set. Order immediately? Press [here](#).

The drive shafts are secured on both sides with 4 studs (M9 x 42mm) and not available new until now! The price is 2,89 per piece and can be ordered [here](#).

A part from the stainless steel suspension cylinders covers we now have them made in steel. So now you can repair it yourself. From 20 euro now 16,50 euro. Order immediately? Press [here](#).

The rear exhaust pipe of a 2CV hangs on a small piece of rubber. This part was hard to get but not anymore! Order immediately? Press [here](#).

We ordered the Burton softtop cover in a large quantity so we can now offer it to you for a much better price! From 75 euro now for just 49 euro. Order immediately? Press [here](#).

Did you know that:

- ... there's a rumour going that Santa Claus wants to trade in his sleigh for a Burton?
- ... old employee Arjen Oude Alink is married with his Karin?
- ... we are busy updating the Burton owners register?
- ... the building manual now available is in 4 languages?
