NEWSLETTER JULY 2009

2CV World Meeting in the Czech Republic (29 July until 2 August)

On the hippodrome in Most, Czech Republic, thousands of 2CV's will come together again for the 18th world meeting. We think this will become the best world meeting ever! We, Burton Car Company, will also go there, equipped with 2CV's, Burtons and a van filled with new parts. For more information, see www.2cv2009.cz.

Summer holidays

During the summer holidays we will be closed for two weeks. This Saturday, the 25th of July, will be our last work day, and then we are closed until Monday the 10th of August. Of course, we will be at the world meeting in the Czech Republic, equipped with our Burton- and 2CV-parts. A limited number of webshop orders will be delivered during these summer holidays.

Polyester day: 22 August

This year we will be organising a polyester day again, which will be held on Saturday 22 August. For everyone who wants to get rid of scratches and other small damage to the car's body, this will be a very educative day. Also, we will go into detail about polishing polyester. The workshop, led by one of our polyester specialists Antoni or Dimitri, starts at 10.30AM, but already at 10.00AM we will start with a cup of coffee.

Burton: classic car with A-label

Burton belongs to the top 10 most fuel efficient petrol cars of this moment. The Dutch route service company ANWB has tested the Burton and found a real usage of 20.4 kilometre on just 1 litre! Not bad at all with its techniques dating from the early forties... We would love to rehearse this test with a 425cc engine, so who has got one available for Top Gear or other media? Will we reach the 1 to 30?

Guidebook in English

Already the first four chapters of the Burton guidebook have been translated to English! This is done by Burton driver René Bakker from Amersfoort. The amount of work was much more than we expected, so very well done René! From now on, we will publish each translated chapter on our website.

Burton Car Company

Burton on the 24h of Spa Francorchamps

Finally! Burton is allowed to join the 24 of Spa Francorchamps! Burton Belgium from Brussels has arranged that we are allowed to join already this year. Of course, Burton Car Company is one of the main sponsors! So watch and learn on 17 and 18 October 2009, it will be worth it. It is also nice to combine it with a nice trip through the Ardennes.

New products

As already mentioned in the last several news letters, we are already a far way on developing new Burton- and 2CV-products. This is a little selection of these new parts. As usual, these can be ordered through our web shop from this day on.

The **window clip in stainless steel** is also available in powder coating black or old grey for only € 10,-. Good for the 2CV hinged window and the Burton hard top.

The **indicator handle** of a 2CV happens to break. Now, we have a handle made of better quality than the original version, available in black or chrome for just € 9,95.

Beside several 2CV puzzles, we now have made a beautiful **Burton Puzzle**. You can see Burtons, shown from all perspectives, which does not only make this puzzle a great toy for the younger ones, but also very nice for their parents!
The price: € 9.95

Of course, there are also new tools. There is a **“tool for the axle arm nut”** for only € 25,-, and a **“track rod end castle nut tool”** for € 20,-.

Especially for the central suspension cylinder we have made extra thin **spanner 46 mm** for a price of € 25,-.

Also good and cheap: the **2CV side-antenna chrome** for only € 12,95.

Burton cable harness

The Burton cable harness is made better and extended. For example, we have standardized the windscreen-wipers, windscreen-demister and the cable loom for tow your Burton with the triangle. Good news: the price has not changed!

Burton rear view mirror in stainless steel

We have had quite some problems with the rusted Burton interior rear-view mirror. This will not happen with the new version, which we have designed and made from stainless steel! For sale for only 29 euro. People who will trade in their old interior rear-view mirror until 21 September (our Open Day) will only pay 15 euro.

Did you know that.....

- We have an Open Door Day at September 21?
- We added a lot of new pictures to our website?
- The body production is at full speed again?
- Our brochure has also been translated to German and English?
- BCC will have an article in KLM Magazine?
- We always receive very nice pictures during holiday time? (See next page...)

Agenda

Nice way to transport your canoe!

Henk and Christel were joining the "2.000 km. durch Deutschland" with their Burton # 800.

A "must do" for every Burton-driver: Schotland!

Rik ten Napel and his brother passing the Jullierpas.
